Happiness isn't formed with facial muscles. It is deeper than a smile. Its brightness is merely mirrored in shining eyes. Happiness is the warm fertile climate with which God has endowed each human soul. It

will flourish as long as our hearts and minds are exposed to the radiance of God. And, for those who discover early the spiritual center of happiness, no storm of life can ever penetrate so deeply as to chill the joy of the soul. Are you less conscious of that inner happiness than once? Perhaps you're living in the shad-
